FOR IMMEDIATE RELEASE:

Tantalus Named Among Top 10 Best Smart Grid Solution Providers – 2017

Energy CIO Insights features Tantalus' edge computing and data analytics capability in cover story, "Powering the True Smart Grid"

FREMONT, Calif. AND RALEIGH, N.C., July 20, 2017 — [Tantalus Systems](#), a leading provider of smart grid networks and applications, is being recognized as one of the Top 10 Best Smart Grid Solution Providers - 2017 by [Energy CIO Insights](#) magazine. Energy CIO Insights ranked Tantalus based on the company's ability to deliver long-term value to all utility stakeholders through a differentiated and secure communications network, which includes powerful and intelligent computing power deployed to the edge of the distribution grid.

"It is an honor to be selected as one of Energy CIO Insight's Top 10 Best Smart Grid Solution Providers in 2017," stated Peter Londa, President & CEO for Tantalus. "This recognition reflects our team's unwavering commitment to help utilities leverage edge computing applications and analytics to go well beyond traditional AMI. We will continue to expand our capabilities in order to maximize value for our utility customers."

Tantalus partners with electric, water and gas utilities to deliver measurable and meaningful operational savings through its multi-purpose Smart Grid solutions platform for Advanced Metering, Load Management and Distribution Grid Optimization.

TUNet® - the Tantalus Utility Network - is a rugged and flexible IoT-based network that enables utilities to automate processes, improve business operations and deliver top-tier customer service through applications such as pro-active outage management, voltage control, streetlight control and revenue protection.

"It's a great honor to announce Tantalus as one of the 10 companies featured in the Smart Grid special edition," said Laura Davis, Managing Editor of Energy CIO Insights. "Companies are chosen for inclusion on this prestigious list based on an analysis of technology differentiation, market positioning and strategic leadership."
